

ALIGN AND CONQUER!

As an association, we know that you are always looking for ways to assist your members in their day-to-day activities. What better way than to streamline their workflow by eliminating steps?

Like zipLogix™, your association partners with top-notch companies that offer products and services

that save time and money, as well as reduce risks and eliminate redundancies.

zipLogix™ has a program called zipAlliance® that is built directly into zipForm® Plus. This program allows us to work with your affinity partners and add them to the list of current partners. Your association

affinity partners will be at your members' fingertips as they work on their transactions in zipForm® Plus and zipForm® Mobile.

Your partners get more exposure and your members save time and reduce redundancy.

IT'S A WIN-WIN FOR ALL!
