

zipForm® Mobile

Connect Right Where You Are From Your Mobile Web Browser!

zipLogix™ is proud to introduce zipForm® Mobile the first mobile forms solution for real estate professionals, an application that provides a connection to the office when your business has 'left the building'. This companion application is an extension of your zipForm® Plus account that allows you to keep important transaction information readily accessible. Now you can easily stay connected to your zipForm® contract information anytime and anywhere your hectic schedule takes you. This mobile application was designed by zipLogix™'s developers as a result of listening to the growing number of brokers and agents that are now using these popular mobile devices.

Today's real estate professional knows that it is getting harder to stay ahead of the competition in this ever-changing industry. You rely on tools that simplify and improve your day-to-day life - tools that allow you to act fast and access vital information immediately, no matter where you are. Keeping on top of the latest technology in the office is work enough, but now agents and brokers must find a way to connect and take care of business wherever they go. To answer this need zipLogix™ now has zipForm® Mobile for the Apple®, BlackBerry® and Android™-based tablets and smartphones.

Right here – right now – with the right information

zipForm® Mobile lets you immediately connect to that important information contained in your zipForm® Plus account, and managing online transactions has never been easier. Get property information, seller and buyer information, list and offer dates along with listing price and deposit. You can quickly list the forms within a transaction, add a new form to a transaction and fill in any form with all the information for a transaction.

Key Features Include:

- (Tablet Users) TouchSign® offers in-person natural electronic signatures
- (Tablet Users) Fill in your forms in Form View mode just like using zipForm on your computer
- (Tablet Users) Apply the Highlight tool and Strikeout tool as featured in zipForm
- Apply existing templates to new or existing transactions as you would in zipForm
- Launch zipLogix Digital Ink® to digitally sign documents
- Access zipVault documents and import data with zipFormMLS-Connect®
- Fill in all fields on every form and information cascades throughout the transaction
- Email one or more forms in PDF format to one or more email recipients, complete with any comments

zipForm® Mobile is a versatile method for today's busy real estate professionals to interface to their zipForm software. The information you enter, including any forms you've added to an existing transaction or new transaction, will automatically sync with your zipForm® Plus account.

Minimum System Requirements:

- zipForm® Plus account
- Apple® iOS 3 and above for all Apple Mobile devices
- BlackBerry® 4.6 and above
- Android™ 1.6 and above for all compatible devices

zipForm® Mobile is not endorsed by the National Association of REALTORS® and is not included as part of NAR's REALTOR Benefits® Program.
